It is with great sadness that I write this letter to my patients.

First, please accept my apologies that I was unable to continue as I had always dreamed, of taking care of my patients until retirement at a ripe old age. I've been offered to make this great transition in my career.

I have left my personal Email in the letterhead of this letter so that I can help you transition to my replacement. I want to be available to do whatever I can to help make this transition as smooth as possible in my absence.

I'm profoundly grateful to the patients who have stuck with me for so long. It has been quite humbling for me to become an intimate part of your lives. I have long given my best efforts to taking good care of each of you. Many of my efforts were "behind the scenes" in my attempts to set up systems that ensured everybody got the best possible care. I've spent many hours furthering my knowledge of Medicine and how amazing these bodies of ours are, what an unimaginably great job God did in designing us as I've tried to help maintain and fix the inevitable problems that come with aging.

So many of you have taught me so much about myself, about humanity, and about generosity. For these lessons, I will forever be profoundly grateful. I've come to love each of you in a special way.

I've taken great care in choosing my replacement. This has been no easy task for me. My patients deserve the best available care.

Ron Surowitz, DO is my choice of replacement. He is very good with osteopathic manipulative therapy as well as all facets of good general primary family medical care. He'll be the custodian of all of my practices charts/medical records. Dr. Surowitz does not do Chelation or the Marshall Protocol and he doesn't manage patients on long-term opiates for pain control; this is done by the other doctors as noted below.

Ron Surowitz, DO &
Erin Brophy ARNP
411 W. Indiantown Rd.
Jupiter, FL 33458
(561) 746-7826 Vox
(561) 744-1970 Fax

They're located on the North side of Indiantown Rd just East of Military Trail in Jupiter.

My patients on opiates/pain medications including Suboxone/Subutex will have several physicians that I've reviewed and chosen carefully as I've asked them to carry on with your care, there are several choices available, as well as some in the "north end" to make it easier for those who have commuted quite a distance to see me. I have every confidence that these folks will take good care of my patients:

Dana Nitke, DO Primary Care
641 University Blvd.
Suite 101

Jupiter, FL 33458
(561) 626-6695
Jose Toledo, MD Neurology
827 SE 5th Street
